

- 1) This a screen the screener set out of a 5 out set. A good opporutunity to get a shooter a shot.
- 2) 3 sprints across the lane to set a cross screen for 2. The key is to SPRINT to create separation between you and the defender.
- 3) A quick pass to 2 here if the defense is locked into the shooter could be possible.

- 1) With the quick screening action that should create at least some hesitation from the defense, the post will now set a downscreen.
- 2) **Teaching Point:** If the defense tries to switch this screen, this is a great opportunity for the 5 to slip into the lane for a second cut (See frame 3)
