## SHOOTERS: GOLDEN STATE ELEVATOR

1) Golden State needed a quick 3 late in the game this past week.
2) With two of the best shooters (**Stephen Curry** & **Klay Thompson**) in the NBA currently I paid attention to see how they would get it.
3) They used the Horns look to set up this action. With **Curry** with the ball at the point, he threw it **David Lee** right around the arc area.

SHOOTERS: GOLDEN STATE ELEVATOR

1) **Curry** ran off of Lee to set a screen for **Thompson** in the corner.
2) This is some of the old Princeton action where normally the shooter would run up to the wing for the 3.
3) But here we see that **x2** expected the action & "***blew***" up the screen for **Thompson** - which caused him to curl the screen into the lane.

SHOOTERS: GOLDEN STATE ELEVATOR

1) Here **Curry** made a **2nd** cut to the wing to receive the pass back from Lee.
2) If **Curry's** man had helped on the curl cut, **Curry** would have been open at the arc.

SHOOTERS: GOLDEN STATE ELEVATOR

1) Now with **Curry** with the ball on the wing, the Warriors set an elevator screen for **Thompson** in the lane.
2) The two post players came together to make sure he was able to get it off at the top of the key.
