

JEFF WALZ: WEST	JEFF WALZ: WEST
<p>1) Walz likes to start all of his sets out of the same formation &amp; then move into the action.</p> <p>2) Here he cuts his best shooter to the right corner, while the other wing moves on the block beside the post.</p>	<p>1) Now 3 moves to screen the far forward &amp; 5 screens the middle man in the zone.</p> <p>2) The PG should take a dribble or two to create the proper angle for the post feed.</p> <p>3) Notice how <b>x3</b> has moved out to the corner on the shooter - this creates the space needed.</p>
