ATTACKING A 2-3 ZONE

ZONE OFFENSE THOUGHTS

1. When ball hits the wing get rid of it quickly. Makes the zone move more
2. Catch hi post and then look to short corner, then look skip pass.
3. Catch short corner look for the hi post dive, then look skip
4. Be simple against multiple zones.
5. Will assign a "rover". The "rover" has freedom to do what he wants.
6. Spacing is 15-17ft apart. This keeps the offense moving.
7. Loves screening backside of the zone.
8. Likes to ball screen the zone. (Outside and inside ball screens)
9. Against good zones must have constant player and ball movement
10. Emphasis on shot and ball fakes with his players.
11. Prefers 7-10 passes against the zone.
12. When attacking a 1-3-1 he wants the ball delivered before half court.
