

Here is another set that the Chicago Storm out of their Horns set. Ellena Della Donne is #11 here and playing a PF position. She sets the screen here for the wing running across the top.

Now with the wing with the ball, the post goes and cross screens for EDD.

EDD is free to set the ball screen on the wing and with her defender screened - it is hard to trap this action. More than likely the defense will stretch to prevent penetration, which leaves EDD open for a jumper in the corner.
