

KEIL MOORE: DIAMOND OPTION

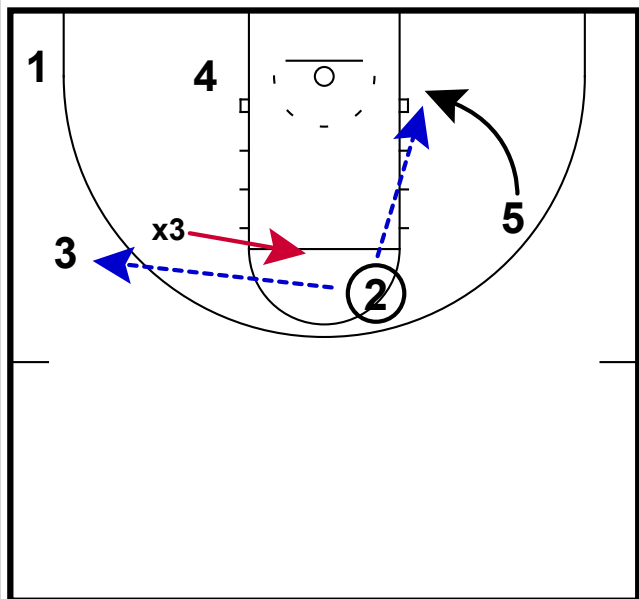

This action starts in a diamond set where 2 has an option to come off a screen either from 5 or 4. 3 will space to the other wing depending on where the ball goes.

KEIL MOORE: DIAMOND OPTION

Once the ball is entered, the PG will clear to the opposite corner. As this happens, a cross screen happens in the lane. The purpose here is to bring the post player high to set the ball screen for 2.

KEIL MOORE: DIAMOND OPTION

With 2 turning the corner, this opens up a number of options. 2 can score for him/herself or dump to a rolling 5.

If the defense has stopped the pick and roll action well, this could mean that 2 should kick to the opposite wing for a shot or quick reversal.
