

BOB: TRINITY HS (KY) TRIPLE DOUBLE

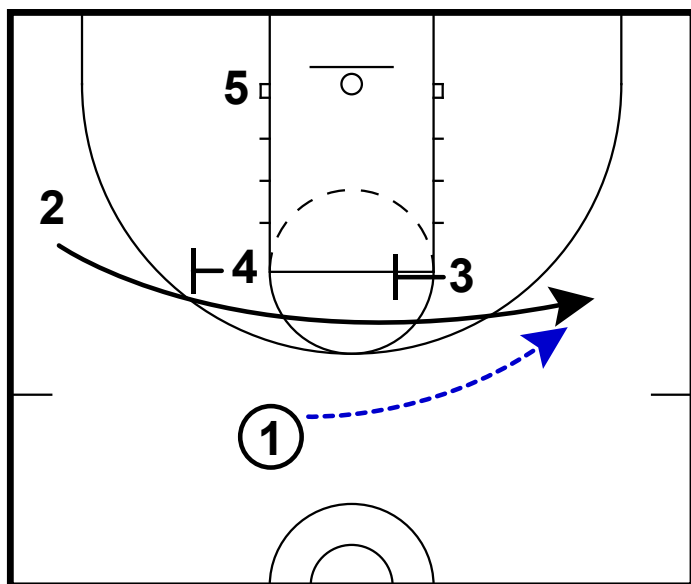

Baseline Out of Bounds

1. Trinity HS in Kentucky is one of the better teams in the nation this year, because of the unique talent that they have in 6-10 forward Raymond Spalding.
2. Here is an example of their well ran system, which I nicknamed "Triple-Double" because the set will get 3 double screens off of an inbounds pass.

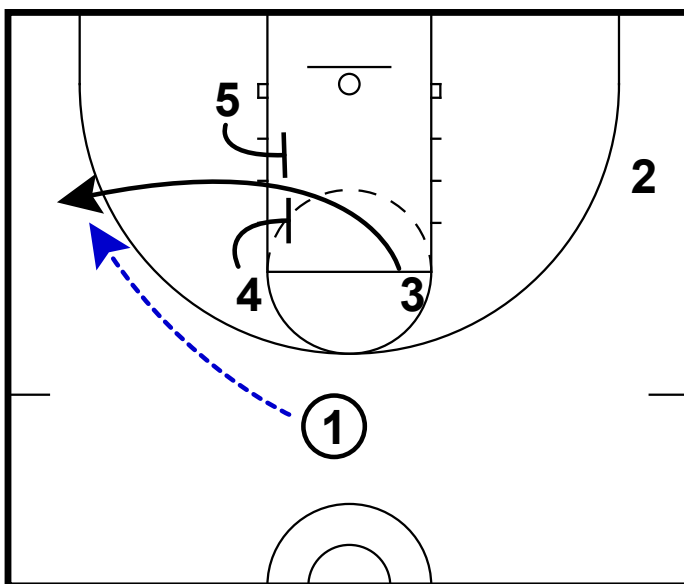

Baseline Out of Bounds

1. Out of the box set, the point guard will receive a double screen by the two ball side posts after the ball had been inbounded.
2. The ball will then be swung back to the top of the key to the point guard.

Baseline Out of Bounds

1. The second double screen takes place for 2 who receives two 'quick' screens at the elbows.
2. This would be the first option to score as 2 would be set up for a nice iso look to attack the rim.

Baseline Out of Bounds

1. The third and final double screen takes place for 3 who receives an elevator screen by the post players.
2. 3 can look for his shot or look for a post feed to 5.
