

Coach Hemi

STACK & LOOP

- 1) This is an easy set for an end of the quarter or half to get a quick shot.
- 2) Stack your posts high and your guards low.

STACK & LOOP

- 1) The point guard dribbles to a wing and the ball side guard flashes quickly to the top of the key.
- 2) This play can be ran vs. man or zone.

STACK & LOOP

- 1) Once 3 catches the ball at the top of the key, 2 pops to the wing for a reversal pass.
- 2) **Teaching Point:** Timing is key here. 2 should time up his/her cut to the wing, even rubbing off 5 for a screen if necessary.

STACK & LOOP

- 1) If 2 does not have a shot on the reversal, cutting 1 through on the baseline creates an overload situation and a chance for 1 to have a shot on the baseline.
- 2) Also if 4 & 5 do their job screening along the baseline - they should have opportunities to screen/seal/score near the basket.
