UGA SHOOTING DRILLS

This shooting drill is designed to get players shots while coming off screens. They shoot shots off three different cuts.

EMPHASIS: Players must first get to the shaded area to set up the cut, do not let them take a short to get the shot off.

UGA SHOOTING DRILLS

This cut is the curl cut. This can be a timed shooting drill or tell players to get a certain amount of makes before they can move on.

UGA SHOOTING DRILLS

Here is the fade cut. Working on getting their feet under the body should be key for getting shots off.
